About Asiatex

With four successful editions in the past, Hindustan Chamber of Commerce is now gearing up for its **5th Edition** and is pleased to announce **ASIATEX - 2023**.

Asiatex's mission is to enable business by connecting the entire textile trade industry. It promotes the growth of the textile industry by creating effective networking opportunities for suppliers while bringing together buyers from different regions on one platform.

The fair provides real-time opportunities to showcase future trends, introduce latest products, keep abreast of innovations and develop new networks for the ever-growing textile trade. This is of particular importance in this market which is as vast and diversified as the Indian market.

India's potential in the textile sector is undeniable as it has a strong presence in the entire textile and apparel industry globally, boasting a huge domestic market as well as world-class manufacturing facilities for exports.

General paradigms of endless opportunities in the Indian market:

Consumption: Rising incomes and a shift to digitization are driving India's economy. India's consumption capacity will grow by nearly \$2 trillion by 2030. The number of high-income households will also increase significantly in the coming years. Household disposable income is forecast to grow by almost 10% over the period 2022-26, leading to increased consumer spending. Urbanisation will also increase significantly, creating a more affluent consumer base. By 2030, India will have the third largest number of high-income households in the world, with more than half of the population in the consumer class after the US and China.

Retail: Between 2022 and 2030, India's retail industry is expected to grow by nearly 10% annually. Organised retail grew by 50 per cent during 2012-20 and is valued at 12 per cent of the total retail market.

E-commerce: Growing urbanisation and increasing smartphone penetration, supported by high-speed internet, has brought fashion to tier II, III and IV cities. This is expected to double the overall e-commerce sales between 2022 and 2026. India's online fashion industry is growing significantly, supported by rising order volumes from Tier II and III cities.

Exports: Exports of yarns, fabrics, garments, made-ups and handloom products have grown exponentially in 2021-2022. A key player in the regional economy, India is the gateway to Asian markets. The combined strengths of India and South Asia have created the world's second largest textile and apparel industry in India.

Domestic Market: India's domestic market is the 6th largest fashion market in the world, fuelled by the world's largest youth population under the age of 35. India's domestic textile and apparel market is set to grow at nearly 18-20% per annum between 2022 and 2025.

Why Asiatex 2023 ?

The industry as a whole came to standstill during the COVID-19 pandemic and has still not fully recovered from the crisis. The Ukraine-Russia war took its toll on the industry with unprecedented fluctuations in commodity prices. Now, with the correction of these prices, the industry has gradually recovered and is operating at full capacity. As this is the best time and opportunity to showcase the new developments in the industry, Hindustan Chamber of Commerce has decided to organise Asiatex 2023 from 31st August to 2nd September, 2023 at the Jio World Convention Centre, Mumbai. At this time, there can be no better opportunity than this for your business to be on the road to progress and recovery. The fair aims to showcase India's progress in the textile industry and expects visitors from all over the country as well as overseas.

Venue - JIO WORLD CONVENTION CENTRE

Welcome to Mumbai's New Icon

Spread over 18.5 acres, Jio World Convention Centre is a multifaceted development where people will get together, to appreciate art, to exchange ideas, to celebrate culture, and to soak in the heritage and vibrancy of our great city.

A Global Destination

Jio World Convention Centre is a stunning new landmark for India, as well as a prime location for business, leisure, entertainment, and retail in the prestigious precinct of Bandra Kurla Complex.

About Hindustan Chamber of Commerce

Hindustan Chamber of Commerce was established in the year 1897 and is one of the oldest associations of textile traders and manufacturers in India.

The Chamber has a very glorious and illustrious past. It actively participated in the struggle for Independence and the Swadeshi Movement. Even after Independence, the Chamber contributed generously during the Indo-China War, 1962, Indo-Pakistan War, 1971 and Kargil War, 1999. Moreover, throughout its 125-year journey, the Chamber has never deviated from its basic objective of serving not only the textile trade but also the society at large.

Marwari Commercial High School and Junior College was established in 1916 and **Hindustan Chamber Chikitsalay** (for affordable Medical Treatment) in 1960. The vision was to be of service to the weaker and underprivileged sections of the society. Ever since, it has been doing its duty impeccably. It makes us humble to realise that we have been able to continuously touch the lives of so many people with our vision.

The Chamber has also been conducting **Arbitrations** for several decades. Arbitration is a cost effective and faster way of resolving disputes.

The Chamber is also authorized by the Ministry of Commerce, Government of India, to issue **"Certificate of Origin"** (Non Preferential) to the exporters since 2002.

The Chamber has always been a generous donor in times of natural disasters, but it is humbling to know that we were able to help people during the Covid-19 pandemic as well.

In the course of time, the Chamber has had the privilege of hosting distinguished personalities like the Father of the Nation - Mahatma Gandhi, Dr. Rajendra Prasad, Netaji Subhash Chandra Bose, Purushottam Das Tandon, Morarji Desai, R. Venkatraman, Atal Bihari Vajpayee, Bhairon Singh Shekhawat, Yashwantrao Chauhan and many others.

The Chamber's centenary celebration in 1997 was inaugurated by the then Prime Minister of India, Shri H. D. Deve Gowda.

Today, as the Chamber has completed **125 glorious years**, we are celebrating by bringing together the people of the same industry to help grow the industry in an efficient and sustainable manner in the challenging post COVID-19 market.

Asiatex 2023 is part of the 125 years celebration. Be a part of it and strengthen our unity.
